Apply by 19th July 2019

Job Description: *Senior Ruby on Rails Engineer*
Salary : $1,700 - $2,300 / Month

About Dussoft Engineering : Dussoft is a venture backed technology company building smarter software for an autonomous world. We have an intelligent and motivated staff. We have our office in Kigali . For this position we're open to primarily remote work utilizing Slack & video conferencing.

Job Summary:
As a Ruby on Rails Developer at Dussoft , you will be an integral member of a small technology team working on internal and external facing applications and tools. Developers support the improvement of our core products and help create our next generation of cutting edge products. Superstars in Ruby on Rails are our ideal candidates! If you have a passion for developing applications that end-users love, are comfortable with independent and collaborative work, then please send your cv on dussofteng@gmail.com !

Candidates should be prepared to share examples of code they've developed and be willing to take a coding test.

Responsibilities and Duties

Manage timelines and development of code base via AGILE processes
Work with Our team to ensure delivery of desired functionality
Contribute individually and participate collaboratively with the engineering team
Attend daily Scrum meetings, weekly company meetings and conference calls
Other tasks as assigned or agreed upon with your supervisor

Qualifications and Skills
3 - 5 years of professional experience using Ruby on Rails
1 - 3 years of professional experience using ES6 or TypeScript
Experience using JavaScript frameworks (we use React) (nice to have: Redux / Webpack)
Up-to-date knowledge of HTML5 / CSS
Benefits

Extended 3 weeks' vacation, 12 Holidays.

Job Type: Full-time

Salary: $1,700 - $2,300 / Month
